

InCourage Teambuilding

Team InCouragizers

Below are a few samples from the dozens of InCouragizer initiatives that can be customized to ensure your off-site is a success.

The Right Mix

For an organization to be successful in its market, it must identify the right mix of customers and the right mix of products and services to meet these customers' needs.

These dynamics can be replicated using a high ropes course. This complex team challenge takes the team to a high-ropes facility that requires several smaller groups to strive for their group goals, while contributing a specific technical skill to the overall team task – that being to deliver the Right Mix.

Serve-ivor

Challenges teams to outthink, outbuild, outdeliver, outlaunch, and outserve. This is a highly-charged, team-focused program that requires tribes to solve a

series of fun mental and physical challenges. This program needs to be customized for the particular venue you select.

International Orbiter

Your organization likely invests significantly in developing the skills of your "knowledge workers." Do you ever wonder why such intelligent, skilled people often find it difficult to work effectively as a team? This program challenges teams to work effectively. Using robotic arms, operating from different countries, sub-teams must construct the International Orbiter. Mission control has the procedures manual, France has the radar reflector, Switzerland has the solar panels, Australia has the environmental control systems, and Russia has guidance control. The teams must coordinate efforts using various communication systems to complete the functional Orbiter.
